

Software organogram & package guide

How TravelAgencyWeb works, A to Z — and exactly what the Basic, Pro, Business and Unlimited packages unlock.

TravelAgencyWeb — travel agency software for Bangladesh · for agency owners

1 · How the software works — A to Z

Every booking follows the same simple money trail. Available on **all packages**.

1

Inquiry

A customer asks a price. Save them in 10 seconds — it lands on your Dashboard to follow up.

2

Client

Store the customer: passport, NID, documents, history. Reuse forever.

3

Quotation

Send a professional price quote. Accept → convert to a booking in one click.

4

Booking

The confirmed deal — any service (Hajj, ticket, visa, tour, hotel). Selling price vs cost = profit.

5

Invoice

Bill the customer. Always see paid, partial, due and overdue.

6

Payment

Record cash / bKash / bank / card. Balance updates everywhere instantly.

7

Accounts & Reports

Real profit — receivables, payables, expenses, and business reports.

Supporting all steps: Vendors/suppliers (your costs) · Expenses · Tasks · Team & roles · Settings.

Runs on autopilot every day

- **Daily WhatsApp summary** to the owner every evening — today's bookings, payments received, outstanding dues, unpaid invoices and what needs action. (*Business & Unlimited*)
- **Automatic daily backup** — every agency's data is safely backed up each day, no button to press. (*All packages*)

2 · Software structure (module organogram)

■ Core — every package ■ Advanced — Business & Unlimited only

TravelAgencyWeb

Core — all packages (15)

Dashboard Clients Vendors / Suppliers

Quotations Bookings (any service)

Packages & Services Invoices Payments

Expenses Accounts & Ledger Reports

Tasks Team & Roles Settings

Subscription

Advanced — Business & Unlimited (11)

CRM workspace Hajj & Umrah ops desk

Air ticketing ops Visa tracker

Tour & group / MICE Corporate travel

Sub-agents & commission

Documents & service desk HR & payroll

Marketing & loyalty Website & CMS

Advanced modules are **off by default**. On Business & Unlimited the owner switches on the ones they need in **Settings → Optional modules**. Any package can still **sell** Hajj, visa, tickets and tours as bookings — the advanced tiers add the dedicated operation desks and growth tools.

3 · What each package unlocks

Each package includes everything in the one before it.

Basic ₪500/mo

New / small agency getting organised.

- Full core: clients, bookings, quotations, invoices, payments, expenses, accounts, reports

Prices and limits reflect the current plan configuration. Advanced modules are opt-in per tenant.

5 · Which package for whom

Basic · ₺500/mo

New / small agency getting organised.

Pro · ₺800/mo

Growing agency reaching customers online.

Business · ₺1,500/mo

Established agency wanting the full toolkit.

Unlimited · ₺5,000/mo

Large / multi-branch agency at scale.

Upgrade any time from **Settings** → **Subscription & plan**. Upgrading unlocks higher limits and, on Business & Unlimited, the advanced modules — nothing is re-entered.
